

Welding Technology

Instructors: Michael Johnson

Location: Gurley Hall 1328 – morning session

Career Cluster: Architecture & Construction and Manufacturing

Program Overview:

Students will receive training on a variety of welding machines. They will learn the proper methods for welding different types of materials – aluminum, mild steel, cast iron, and stainless steel. These skills can be used in different trades such as automotive technology, plumbing, general maintenance, and construction. Student can earn an industry-recognized credential – OSHA 10 – as well as certifications through the American Welding Society (AWS).

Academic Readiness:

- The student must possess the ability to complete basic mathematical computations, including fractions and measurements.
- It is desired that the student be able to read at a 10th grade level.
- It is desired that the student possess instruction computer key (cas) 3-9-MS (el) (7) (8) (9) (10) (11) (12) ETC

Considerations:

- Students must receive instruction and undergo (an)- (d) W 2 reW* (ud)-JETQ 000000 92 0 62 9 reW* nBT/F1 9 and
